

Carousel

Carousel

See design guideline

Carousels contain a collection of items that can be scrolled on and off the screen.

Checkboxes

Checkboxes

See design guideline

Checkboxes allow users to select one or more items from a set and can be used to turn an option on or off. They're a kind of selection control that helps users make a choice from a set of options.

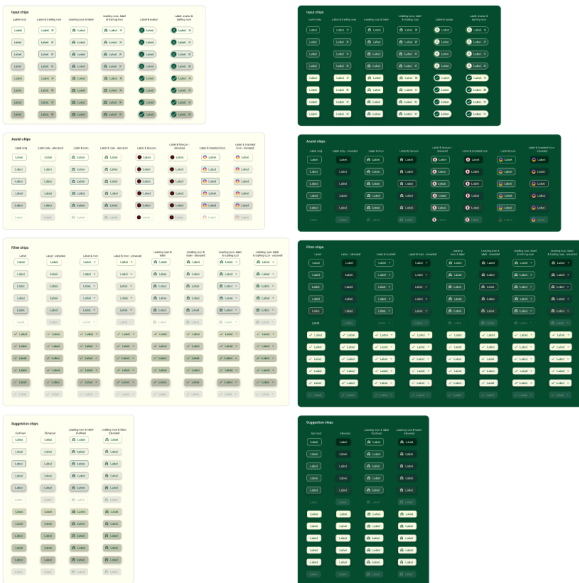

Chips

Chips

See design guideline

Chips are small, pill-shaped elements that can be used to represent a category, a filter, or a value.

Date pickers

Date pickers

See design guideline

Date pickers allow users to select a date or a range of dates.

FAAs help people take primary actions. They're used to represent the most important actions on a screen.

© 2005 Blackwell Publishing Ltd *Journal of Internal Medicine* 258: 103–110

The image displays a set of 12 icons representing different file types, organized into six groups. Each group shows the icon in its default state and then in three different visual styles (dark, light, and a third style) for each of the four themes (Light, Dark, Light, Dark).

- Book Files:** Includes icons for a book, a document with a pencil, a document with a magnifying glass, and a document with a checkmark.
- Photo:** Includes icons for a photo, a photo with a pencil, a photo with a magnifying glass, and a photo with a checkmark.
- Video:** Includes icons for a video, a video with a pencil, a video with a magnifying glass, and a video with a checkmark.
- Large Files:** Includes icons for a large file, a large file with a pencil, a large file with a magnifying glass, and a large file with a checkmark.
- Embedded Files:** Includes icons for an embedded file, an embedded file with a pencil, an embedded file with a magnifying glass, and an embedded file with a checkmark.
- Executable Files:** Includes icons for an executable file, an executable file with a pencil, an executable file with a magnifying glass, and an executable file with a checkmark.

how buttons help people take supplementary actions

Figure 1 displays four 5x5 grids illustrating the evolution of a 2D Ising spin system. The top-left grid shows the initial state with 50% random spins. The top-right grid shows the state after 100 Monte Carlo steps, with small clusters of aligned spins. The bottom-left grid shows the state after 10,000 Monte Carlo steps, with larger clusters. The bottom-right grid shows the state after 100,000 Monte Carlo steps, with a percolating network of clusters.

Lists are continuous, not

The image displays two mobile application interfaces for a music library, comparing a list view (left) and a grid view (right).

Left Interface (List View):

- Header:** A dark green header bar with a white search icon on the left and a white 'Library' title on the right.
- Content:** A list of album entries. Each entry consists of a small album cover, the album title, and the artist name. The list is scrollable.
- Footer:** A dark green footer bar with three white icons: a home icon, a library icon (which is highlighted), and a search icon.

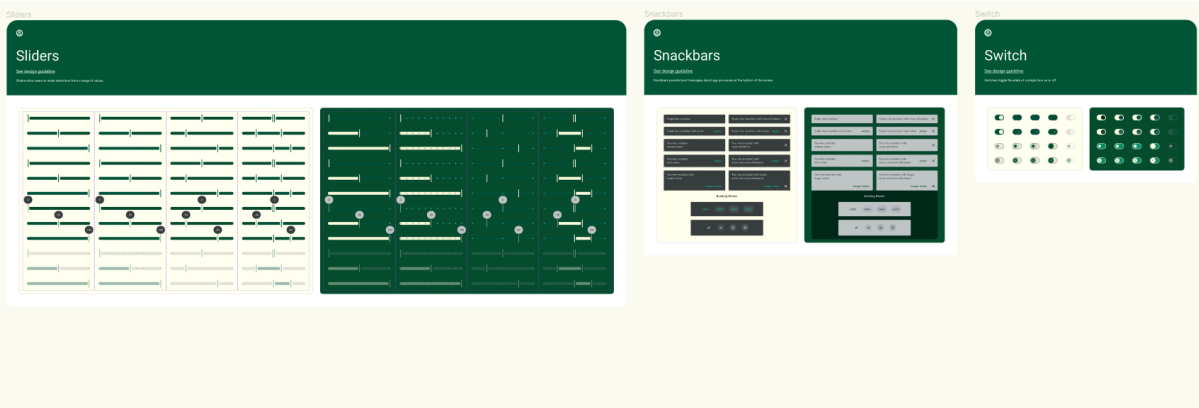

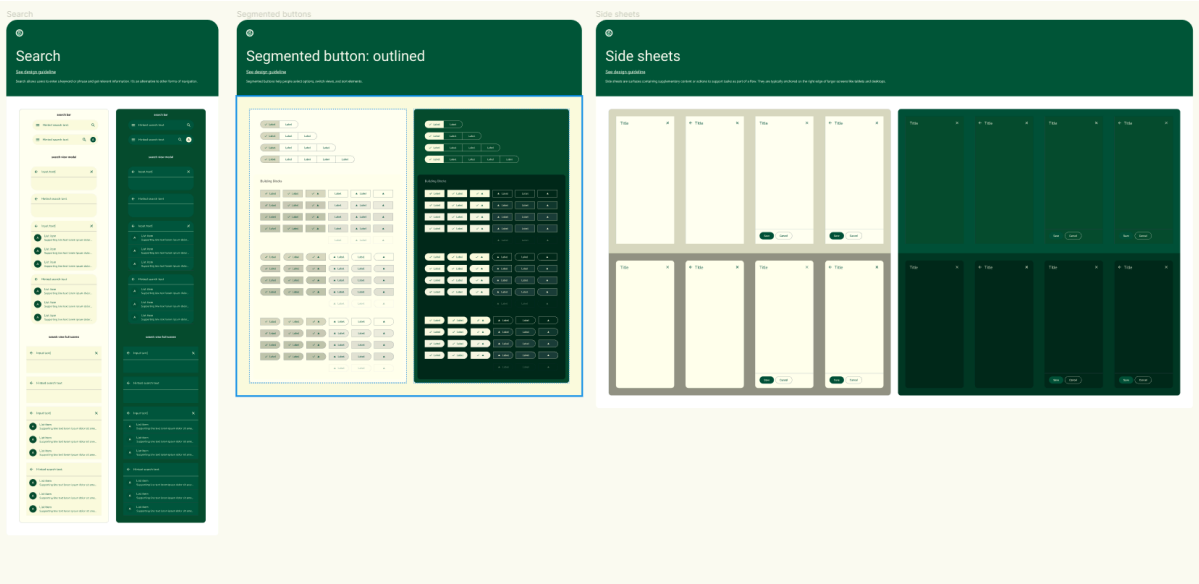

Right Interface (Grid View):

- Header:** A dark green header bar with a white search icon on the left and a white 'Library' title on the right.
- Content:** A grid of album entries. Each entry consists of a large album cover, the album title, and the artist name. The grid is scrollable.
- Footer:** A dark green footer bar with three white icons: a home icon, a library icon (which is highlighted), and a search icon.

Figure 1: Comparison of the user interface of the two versions of the system. The left panel shows the 'Before' version with a light green theme and a table of 10 rows. The right panel shows the 'After' version with a dark green theme and a table of 10 rows. Both versions have a 'Managing Log Entries' section at the top with a search bar and a 'Log' button. The 'After' version has a 'Log' button with a dropdown arrow. The 'Before' version has a 'Log' button with a dropdown arrow. The 'After' version has a 'Log' button with a dropdown arrow. The 'Before' version has a 'Log' button with a dropdown arrow. The 'After' version has a 'Log' button with a dropdown arrow.
